

COMBINED
PROTECTION AGAINST
BURGLARY AND FIRE
AT HOME

HOME SAFE S2 30P

BURGLARY- & FIRE-RESISTANT SAFE

KEY FEATURES

- Combined fire and burglary protection in one safe.
- EN 14450 certified by ECB•S to level S2 burglary protection.
- EN 15659 certified by ECB•S for 30-minutes' fire protection for documents.
- Choice of 6 sizes: from 11- to 91-litre capacity.
- Choice of locking options in all sizes: EN 1300 certified double-bitted key lock or EN 1300 certified electronic lock.
- Dual base fixing holes, supplied with two concrete anchor bolts.
- Ideal safe for protecting cash and valuable items, as well as passports, title deeds and other important documents in the home and office.
- The safe door is secured using the new revolutionary "V" bolt system. The design of the locking bolts helps maintain door integrity both when under physical attack and during a fire.

HOME SAFE S2 30P

Model # 10E

PRODUCT SPECIFICATIONS

| Model | External height (mm) | External width (mm) | External depth (mm) | Width with door open 180° (B) | Depth with door open 90° (D) | Internal height (mm) | Internal width (mm) | Internal depth (mm) | Volume (litres) | Weight (kg) | Shelf |
|-------|----------------------|---------------------|---------------------|-------------------------------|------------------------------|----------------------|---------------------|---------------------|-----------------|-------------|-------|
| 10 | 300 | 360 | 300 | 662 | 627 | 210 | 270 | 191 | 11 | 21 | 1 |

* Hinges project 20mm beyond the depth (C) given above. In standard electronic models, the overall projection increases to 30mm.

HOME SAFE S2 30P

Model # 20E

PRODUCT SPECIFICATIONS

| Model | External height (mm) | External width (mm) | External depth (mm) | Width with door open 180° (B) | Depth with door open 90° (D) | Internal height (mm) | Internal width (mm) | Internal depth (mm) | Volume (litres) | Weight (kg) | Shelf |
|-------|----------------------|---------------------|---------------------|-------------------------------|------------------------------|----------------------|---------------------|---------------------|-----------------|-------------|-------|
| 20 | 300 | 445 | 390 | 832 | 803 | 210 | 355 | 281 | 21 | 28 | 1 |

* Hinges project 20mm beyond the depth (C) given above. In standard electronic models, the overall projection increases to 30mm.

HOME SAFE S2 30P

Model # 35E

PRODUCT SPECIFICATIONS

| Model | External height (mm) | External width (mm) | External depth (mm) | Width with door open 180° (B) | Depth with door open 90° (D) | Internal height (mm) | Internal width (mm) | Internal depth (mm) | Volume (litres) | Weight (kg) | Shelf |
|-------|----------------------|---------------------|---------------------|-------------------------------|------------------------------|----------------------|---------------------|---------------------|-----------------|-------------|-------|
| 35 | 450 | 445 | 390 | 832 | 803 | 210 | 355 | 281 | 36 | 38 | 1 |

* Hinges project 20mm beyond the depth (C) given above. In standard electronic models, the overall projection increases to 30mm.

HOME SAFE S2 30P

Model # 50E

PRODUCT SPECIFICATIONS

| Model | External height (mm) | External width (mm) | External depth (mm) | Width with door open 180° (B) | Depth with door open 90° (D) | Internal height (mm) | Internal width (mm) | Internal depth (mm) | Volume (litres) | Weight (kg) | Shelf |
|-------|----------------------|---------------------|---------------------|-------------------------------|------------------------------|----------------------|---------------------|---------------------|-----------------|-------------|-------|
| 50 | 600 | 445 | 390 | 832 | 803 | 510 | 355 | 281 | 51 | 46 | 1 |

* Hinges project 20mm beyond the depth (C) given above. In standard electronic models, the overall projection increases to 30mm.

* Hinges project 20mm beyond the depth (C) given above. In standard electronic models, the overall projection increases to 30mm.

LOCK OPTIONS

All sizes are available with either a key lock or an electronic code lock. All locks are certified by ECB•S in accordance with European Standard EN 1300.

KEY LOCK

Key lock versions are opened and closed simply by turning the inserted key.

ELECTRONIC LOCK

The electronic lock can be programmed by the user with a six-digit personal code which is memorised by the lock and used each time the safe is opened. Simply rotating the keypad secures the safe door when closing it. The battery used to power the electronic lock is located in the keypad itself and can be easily changed should the existing battery run down whilst the safe is closed.

CERTIFICATION

30P FIRE PROTECTION

The whole range has been certified by ECB•S in accordance with the European EN 15659 standard to provide 30-minutes' protection for documents in the event of a fire.

LEVEL S2 BURGLARY PROTECTION

All sizes have been certified by ECB•S in accordance with the European EN 14450 standard to burglary resistance Level S2.

CONSTRUCTION

Both the walls and the door are constructed using an inner and outer layer of steel containing a specially formulated burglary and fire resistant material developed by Chubb safes. This material provides class-leading performance with low weights enabling installation almost anywhere!
